This application is built for construction companies.

1. Is your app restricted to users who are part of a single company? This may include users of the company's partners, employees, and contractors.
answer -No, app is not restricted to users who are part of a single company. Employees, partners and contractors of multiple companies can use this application.

2. Is your app designed for use by a limited or specific group of companies?
answer - App is designed to use by multiple companies. Yes, any construction company can become client and utilize this application. One name of the company using this app is United Builders.

3. What features in the app, if any, are intended for use by the general public?
answer- All the features are only for the employees of different companies. None of the features are intended for use by the general public but there is an exception. A single construction company may have more than 50 staffs. If we have more than 50 construction company as our client we will have many users so it might be similar to general public.

Our clients are general public. We have many clients. So, this application is for general public and all the features in the app are intended for use by the general public.
We divide or categories the staffs of various companies on the basis of the email provided by them.

4. How do users obtain an account?
answer - Admin can create the account by doing admin login. Admin login can be done from this website http://ubemainframe.com/login.

5. Is there any paid content in the app and if so who pays for it? For example, do users pay for opening an account or using certain features in the app?
answer - No, there are not any paid content in the app.No, user do not pay for opening an account or using certain features in the app
